

SYMPOSIUM AGENDA

DAY 2 Tuesday 07 June 2011

09:00	Address of Welcome by Michael MOLLs
09:05	CARDIORISK: The mechanisms of cardiovascular risks after low radiation doses Concept and objectives <i>Nicolaus ANDRA'TSCHKE</i>

CARDIORISK: What is the translational impact?

09:45	Pathophysiology/Pathogenesis of macrovascular disease <i>Mat DAEMEN</i>
10:30	Coffee Break

11:00	Structural and functional changes of the microvasculature <i>Fiona STEWART</i>
-------	---

11:45	Functional reactions of endothelial cells: inflammation, thrombogenesis, stress <i>Guido HILDEBRANDT</i>
-------	---

12:30	Podium Discussion
-------	-------------------

13:00	Postersession - Short overview <i>Michael MOLLs</i>
-------	--

13:15	Lunch
-------	-------

Complementary information from other studies

14:15	What is radiation induced heart disease? The nature of cardiovascular induced heart disease <i>David CUTTER</i>
-------	---

15:00	What is the target? The functional interaction between lungs and heart <i>Peter VAN LUIJK</i>
-------	---

15:45	Coffee Break
-------	--------------

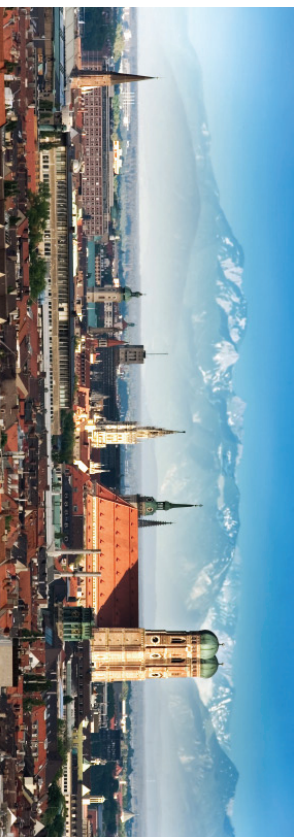

16:00	Are we chasing a phantom? Clinical impact of radiation induced microvascular damage after radiotherapy <i>Larry MARKS</i>
-------	---

16:45	Comparison of late cardiovascular risk after radiation exposure and after treatment with anti-cancer drugs <i>Steve LIPSHULTZ</i>
-------	--

18:00	End of SYMPOSIUM
-------	------------------

DAY 1 Monday 06 June 2011

19:30	Welcome Dinner
-------	----------------

**CARDIORISK
Symposium
07. June 2011
Siemens Forum
Oskar-von-Miller Ring 20
80333 Munich**
